

MAY 26 2017

# AN EMPLOYER WITHOUT A MANDATE

In anticipation of the negotiation session planned for May 24 to 26 2017, UCCO-SACC-CSN tabled its counterproposal on May 15 to give the employer time to prepare its response. Yet, that did not happen... The employer came to the table this week without any preparation and negotiations proceeded at a sloth's pace despite the union's efforts. At the very end of the negotiation session, the employer submitted an insulting counterproposal that still does not recognize the uniqueness of our work and that, once again, takes no account of the environment in which we operate.

The union has planned a tour of Local General Assemblies in June to report on the state of negotiations. We hope to see you there in large numbers.
