

JULY 6 2017

# A STRONG **NO** TO THIS INSULTING OFFER!

Over the past three weeks, members of the bargaining committee visited all 5 regional executives and the 49 locals to give a detailed picture of the state of negotiations, including the global offer by the Treasury Board. All 49 locals held a vote by secret ballot on the employer's insulting offer.

With great participation all across the country, the results speak for themselves: **99.01%** of the members who attended meetings rejected this low ball offer from the government! The bargaining committee thanks you for sending this strong message. Our collective mandate continues to be clear and we will bring it back to the table.

Together, once again, we showed our strength. Now, the Treasury Board cannot show up empty handed at our next bargaining session on August 15, 16 & 17.
