

NOVEMBER 17 2017

WE HAVE A DEAL!

On November 16, 2017, after 42 months of Collective Agreement negotiations, UCCO-SACC-CSN finally reached a tentative collective agreement to be proud of. In light of this development, and in an effort to finalize this epic bargaining round, the union and CSC have agreed to advance Global Agreement negotiations to Tuesday November 21, 2017.

The union intends to submit the concluded agreements to a membership vote as soon as feasible.

During the last two days of discussions, agreements were reached on monetary matters, employee wellness and leave entitlements. The upcoming negotiation with CSC will include discussion on discipline, shift changes and deployments. Highlights of the agreements will be published when finalized.

The union wishes to thank all members whose solidarity has enabled the recent negotiation breakthrough. We are confident that our unity will carry us through to the finish line.

Unity is the key!
