

DECEMBER 18, 2017

IT'S DECISIVE!

88% VOTE TO ADOPT THE TENTATIVE AGREEMENTS

After 42 months of negotiating , after holding general assemblies from coast to coast and following its recommendation by the National Negotiation Committee, members of UCCO-SACC-CSN have voted in favour of the tentative agreements reached with the employer. Upon being informed of the vote results on December 18, 2017, Treasury Board informed the union that it expects to be in a position to sign the Collective Agreement toward the end of February 2018. Traditionally, we sign the Global Agreement around the same time.

The National bargaining committee salutes your patience and solidarity during this round of bargaining, which resulted in working conditions beyond the public service pattern, in recognition of the fact that Correctional Officers are indeed different!
